**Subject: Instrumentation Industries, Inc. REACH, RoHS, and Conflict Mineral Statements**

### 1. REACH – Substances of Very High Concern (SVHC)

To the best of our knowledge through information provided to us by our suppliers, none of the raw materials used in our products are intentionally manufactured or formulated with any of the suspect materials listed in the EU REACH Regulation, nor are the suspect materials added during our internal processes. Therefore, Instrumentation Industries is not aware that any of our products contain any SVHC substances in concentrations of more than 0.1% by weight.

The list of SVHC substances can be found on the European Chemicals Agency website at <http://echa.europa.eu>.

### 2. RoHS – Restriction of Hazardous Substances

To the best of our knowledge, our products are in compliance\* with the suspect materials listed in RoHS Directive 2011/65/EU, Annex II, as shown below:

Lead (0.1%)  
Mercury (0.1%)  
Cadmium (0.1%)  
Hexavalent chromium (0.1%)  
Polybrominated biphenyls (PBB) (0.1%)  
Polybrominated diphenyl ethers (PBDE) (0.1%)

\*Compliance of our gauges and NIF meters is by Exemption (Annex 1, Category 9 of the Directive), and is not due to the absence of suspect materials.

***Regarding REACH and RoHS substances, please be aware that we do not perform our own analysis for specific substances or compounds.***

### 3. Conflict Minerals per Dodd-Frank Act Section 1502

Instrumentation Industries Inc. does not sell products containing conflict minerals as described in 17 CFR parts 240 and 249b / Section 1502 of the Dodd-Frank Act. Conflict minerals are defined as: Cassiterite, Columbite, Tantalite, Gold, Wolframite and their derivatives originating from the Democratic Republic of Congo or adjoining countries. As per supplier-provided verification, purchased components containing tantalum, tin, tungsten or gold (3TG) are sourced from smelters other than those in the Democratic Republic of Congo or adjoining countries.

Additionally, we request that our suppliers confirm that future purchases do not contain conflict minerals originating from the countries listed above.

We thank you for your continued business,

Edward C. Horey  
President

Doris F. Walter  
Regulatory Affairs/QA Manager
